

Ford

THE UNIVERSAL CAR

The Ford car can well be called the "people's car," because there are more than 3,000,000 of them in daily operation. That is about four to one of the nearest follower in the motor car industry. This would not be so if the Ford car had not for sixteen years proven its superiority in service, in durability, and in the low cost for operation and maintenance; this would not be so if the Ford car was not so easy to understand, so simple in construction that anybody and everybody can safely drive it. Let us have your order for one now to avoid delay in delivery.

OFFICIAL MINUTES FOR AUGUST BOARD MAYOR - ALDERMEN.

FULL AND COMPLETE PROCEEDINGS OF THE BOARD OF MAYOR AND ALDERMEN, CITY OF BAY ST. LOUIS, MISSISSIPPI.

The State of Mississippi,
Hancock County,

City of Bay St. Louis.

A regular meeting of the Board of Mayor and Aldermen of the City of Bay St. Louis was held at the City Hall on Saturday, the 7th day of August, A. D. 1920, at 8 o'clock P. M.

There were present Mayor R. W. Webb, Aldermen W. C. Sick, R. S. Blaize, Leo Blaize, L. C. Carver, City Marshal Albert Jones, Secretary Sylvan J. Ladner.

The minutes of the previous meeting were read and on motion duly seconded were approved.

The reports of the various city officers were read, investigated, found correct and approved. The financial report was ordered spread upon the minutes; the others filed.

Moved by R. S. Blaize, seconded by L. C. Carver, and carried, that the bids of The Sea Coast Echo and A. R. Hart be rejected, and new bids be requested by publication as heretofore, and including the request for circulation of the paper and that papers bidding stipulate that the paper be published promptly on the proper day each week, and to include the entire minutes of the Board in one publication, Alderman Sick voting no.

Moved by Alderman W. C. Sick and failed for want of a second to rescind the order granting L. J. Pierres and others at July Meeting to build a wharf at the head of Goodchildren street.

Moved by Alderman Carver, seconded by Alderman Leo Blaize, and carried, that the right given L. J. Pierres and others to build a wharf at the head of Goodchildren street, to be held up and deferred until the September meeting, when all parties concerned are requested to be present.

Resignation of W. A. McDonald as school trustee was received and read to the Board. Moved by Alderman R. S. Blaize, seconded by Alderman Leo Blaize, that said resignation be accepted. Carried.

Donald Marshall school trustee to fill the vacancy of W. A. McDonald, same being ratified by the Board.

LEGAL NOTICE.

Notice is hereby given that the contract for publishing the proceedings and legal notices including the Annual Statement, all ordinances of the City of Bay St. Louis for one year from Saturday, the 4th day of September, 1920, of the City of Bay St. Louis, will be sold to the best advantage of the City. Bids to be submitted on condition that the minutes being published in the newspaper in the first publication after the meeting of the Board, and on condition the entire minutes of the Board be published in one publication and on condition that a failure to publish a paper on any date the paper is due wherein a city publication should appear shall render the contract void. The bids shall contain a sworn statement showing a bona fide circulation. Sealed bids are requested to be filed with the Secretary of the City at the City Hall in Second St., in Bay St. Louis, Miss., on or before Saturday, the 4th day of September, A. D. 1920. The City reserves the right to reject any and all bids.

By order of the Board of Mayor and Aldermen. This 7th day of August, 1920. Sylvan J. Ladner, Secretary.

Moved by R. S. Blaize and seconded by L. C. Carver, and carried, the following resolution was adopted: RESOLUTION FOR SIDEWALKS AND IMPROVEMENTS.

A resolution declaring necessary the making of certain sidewalks and improvements in the following territory:

On west side of Front street, from the north side of lot owned by the Peerless Oyster Company, and known as lot 380, of the First ward, to the north line of Citizen street;

On the east side of Front street, from the north line of lot owned by C. G. Moreau, and known as lot No. 779 of the First ward, to the south line of lot owned by Jules Menou, and known as lot No. 143 of the Second ward;

LOCAL SECRETARY OF BAY RED CROSS HAS FINE JULY REPORT.

Mrs. Mary C. Gager, Executive Secretary, Home Service Section, Reports Unusual Activity at Her Office for Month.

OVER THREE THOUSAND QUESTIONNAIRES SENT OUT.
Local Bureau Handled Ninety-One Cases, from Medical Treatment to Compensation—Amount Money Paid.

Mrs. Mary C. Gager, executive secretary Home Service Section, American Red Cross, in charge of the work for Hancock county, has issued her report for July, which shows the enormous amount of work dispatched through her office for the period of the comparative short space of one month.

The report is for July, and shows the wide scope of work performed by Mrs. Gager, coming within the province of the office.

Mrs. Gager is thoroughly conversant with the work, and the success of the local office is in the main principally to her intelligent and active application.

Her report follows:

The report for July is a week late, but owing to the unusual rush since the questionnaires have been sent out it was impossible to get it sooner. Of the three thousand questionnaires sent to ex-service men 79 per cent of which have been returned, called for some form of work for the man.

For the past month I have had ninety-one cases. Thirty-six of these are after-care. These cases are men requiring medical treatment, physical examinations and compensation.

We have at present eight men from Hancock county in the U. S. Marine Hospital, in New Orleans, La., and one at the Charity hospital.

Messrs. Carlos Green, Joseph Mandala, Willie Green and Fred Stiller have been approved for vocational training.

\$1968.89 has been paid through our office in Bay St. Louis through the Government this month.

\$23,000.00 insurance has been reinstated, this being a gigantic task itself.

Mr. W. E. Baldwin, war risk bureau field investigator, was here for

two weeks working with us in connection with cases.

Dr. Clarence Rush has been appointed local examiner by the U. S. Public Health Service for this county. Dr. Rush succeeds Dr. A. P. Smith, who has resigned.

Within a few days we shall be ready to fill forms for the Victory medals. All ex-service men should procure one, and can apply at our office for one, accompanied with the discharge certificate.

An ill, destitute woman with four children, applied for transportation to her home in Rayne, La. As we have no fund for this purpose, through the generosity of Messrs. E. J. Vairin, Bontemps, Emmett and Horace Kergesten were able to procure her tickets to her home.

FOOD FOR ANY DAY.

A salad which is nourishing enough
to furnish the main dish at a lunch-
eon is prepared as follows:

Veal Salad.—Cut one cupful of veal into dice, add three-fourths of a cupful of diced cooked carrots, one-fourth cupful of finely cut celery, one tablespoonful of minced onion, salt and paprika to taste, mix all the ingredients, add a boiled dressing to moisten, arrange on lettuce and drop a spoonful of mayonnaise on each salad and serve. Peas or other vegetable leftovers may be used instead of carrots.

Seasoned Spaghetti.—Cook three cups of spaghetti in four cups of olive oil, add one cupful of dried mushrooms that have been soaked in water until soft, add the water and mushrooms to the spaghetti with four tablespoons of butter or any sweet fat. Add two cupfuls of stewed veal, two cupfuls of tomatoes, a bay leaf, one-half teaspoonful of thyme, salt and pepper to taste. Simmer for two hours, stirring occasionally. Cook one and one-half cupfuls of spaghetti in salted water until tender, drain and blanch. Put a layer of spaghetti in a buttered baking dish, add a layer of meat and gravy, continue until all is used. Bake in a moderate oven 20 to 30 minutes.

Where maple sirup is plentiful, it may be used in various ways to save the scarce as well as expensive sugar. A little maple sirup poured over grapefruit is delicious. Maple, however, prefer a little salt on grapefruit and find it more appetizing than sugar. This is a good point for those who are reducing in weight.

Green Peas.—Cook in an uncovered saucepan in just a little water as possible, using a pinch of soda and a teaspoonful of sugar to a quart of peas. Serve with the liquor from the peas, adding cream or butter or both. A sprig of mint is added to the peas by some cooks, removing it before serving.

Great Mother Woods, stretch forth your arms to me.
For I have come again with falling tears,
My only strength the urge of my desire,
A patient for your kindly greenery.

Your roots are deep in wisdom as the sea,
And yours a singing soul of wind-tossed
mirth.
To heal me as you heal the scars of earth
With kiss of moss and tenderness of tree.
—Amelia Benjamin Hall.

WHAT TO HAVE FOR BREAKFAST.

Fresh fruit in season is always a welcome breakfast dish. Cherries served very cold with the stems or garnished with the natural leaves make a most pleasing fruit.

Currants in Cracked Ice with plenty of sugar are delicious. The fruit should be very ripe. When other fruit cannot be obtained there is always the wholesome dried fruit—prunes, figs, dates, apricots and pears. These when well cooked are especially healthful, eaten in combination with cooked cereal.

A fried egg to be cooked so that it will be digestible should be dropped into a well-greased frying pan, adding a tablespoonful of hot water, then cover and steam in the pan.

Ham Omelette.—Prepare an omelette as usual and just before folding spread with a cupful of finely minced ham. Less may be used for a small omelette. Place in the oven for a few minutes to finish cooking.

Eggs in Peppers.—Cut a thin slice from the stem end of a green pepper and take out the seeds. Cut a slice from the smaller end so that the pepper will stand level and place on a slice of buttered toast. Make a hollow in the toast and break an egg into each. Bake until the eggs are set.

Codfish a la Mode.—Take one cupful of codfish very fine, soak in cold water. Mix two cupfuls of mashed potatoes with two cupfuls of top milk or thin cream, add two well-beaten eggs. Season to taste, mix well and pile into a well-greased baking dish. Bake 25 minutes. If it does not brown, brush the top with melted butter the last five minutes of cooking.

Maple Custard.—Take three-fourths of a cupful of maple sirup, three cupfuls of milk, two eggs, one and one-half teaspoonfuls of cornstarch, a pinch of salt. Cook the custard and pour over one-half a peach placed in small molds. Chill, unmold and serve.

Beauregard Eggs on Toast.—Cook five eggs until hard; chop into coarse water and remove the shells. Cut and separate the whites and yolks; press the yolks through a sieve and chop the whites very fine. Have ready five squares of toasted bread, placed on a platter. Prepare a rich white sauce, season well and add the chopped whites; place piping hot on the buttered toast, sprinkle with the yolks, salt and pepper, and over all a sprinkling of finely minced parsley.

Fans in History.
In India the fan is most common and there are servants that do nothing else but follow their master about with a punka, a kind of large screen, with which they attempt to cool the atmosphere. In the early ages there were fans from the sacred lotus and when the lotus was in bloom, the fan was made of its leaves.

YOU NEVER CAN TAME A WILD-CAT

APPETIZING DISHES.

Take just plain cottage cheese, add cream, salt and paprika to taste, then mix with a few finely minced chives and half a green pepper shredded, serve plain, or on lettuce with a spoonful of mayonnaise as a salad. Another delicious cottage cheese dish is this: Prepare the cheese with cream, then serve with currant or raspberry jam. Strawberry preserves as well as cherries are delicious with cottage cheese, taking the place of the more expensive but due currants which are such a luxury.

Tongue and Spinach Salad.—Mix two cupfuls of cooked spinach, one cupful of diced cold boiled tongue, half a cupful of minced celery, salt and cayenne to taste. Mix with enough boiled dressing to moisten and pack in small molds. Chill and turn out on lettuce and serve with a spoonful of mayonnaise.

Coconut Custard Pie.—Beat the yolks of three eggs slightly with half a cupful of sugar and one-fourth teaspoonful of salt. Add one cupful of grated coconut and two cupfuls of milk. Pour into a pastry-lined pie plate and bake in a moderate oven. Beat the whites of the eggs until stiff, add two, tablespoonfuls of powdered sugar, cover the pie and put back to brown lightly.

Asparagus Eggs.—Make a sauce of three tablespoonfuls of butter, four tablespoonfuls of flour. Cook together until smooth, add three cupfuls of milk, one-third of a cupful of cheese and one and one-half cupfuls of asparagus tips. When very hot add six eggs unbroken and allow the eggs to set. Serve on hot buttered toast.

Creamed Ham on Toast.—Take one cupful of chopped ham; add to a cream sauce, made by using two tablespoonfuls of butter and four tablespoonfuls of flour. Melt the butter and add the flour and when well mixed add the milk; cook until smooth, then add the ham and pour over well-buttered toast.

I feel the earth move onward,
I join the great march onward,
And take with joy while living
My triumph of thanksgiving.

EGGS IN MANY FORMS.
Eggs are well liked, usually easy to procure and always in the market. Eggs are food which may be given to sick or well, young and old, and served in such a variety of ways that one need never tire of them.

Scrambled Eggs.—Brown a small leek, cut in thin slices in a little butter or butter substitute. Break four eggs into a bowl, with four tablespoonfuls of cream, four tablespoonfuls of water, or stock, and a teaspoonful of butter; beat for a few minutes until thoroughly mixed; turn into the cooked leek and stir until the eggs are a jelly-like consistency. Serve at once on slices of buttered toast on a hot platter.

Poached Eggs with Tomato Sauce.—Where eggs are served at a meal for the main dish this method is a good one: Put half a can of strained tomatoes in a saucepan; add a slice of onion, a bay leaf and a sprig of celery. Cover and simmer gently for five minutes, then strain again; add two tablespoonfuls of butter to two of flour and rub to a smooth paste. Stir constantly until boiling; add a teaspoonful of salt and a few dashes of pepper. Cover a platter with slices of bread, nicely toasted. Poach the eggs, slip them on top of the toast and pour around them the tomato sauce, sprinkled with finely minced parsley.

Eggs for Sandwich Filling.—Take as many hard boiled eggs as are needed, for the number of sandwiches, chop fine and rub to a smooth paste with a little butter and a half teaspoonful of anchovy paste; salt, pepper and paprika to taste. Spread on slices of buttered bread with a crisp spray of water; cover with buttered slices and serve.

If You Need a Medicine You Should Have the Best
Have you ever stopped to reason why it is that so many products that are extensively advertised all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promise made by its manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain of good recommendations by those who have been benefited, to those who are in need of it.

A prominent druggist says: "Take for example, Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact that many people claim that it fails at most every step in overcoming kidney, liver and bladder ailments; corrects urinary troubles and neutralizes the urine which causes rheumatism.

You may need a genuine bottle of Swamp-Root by Parke, Post, Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention this advertisement and send for a free bottle for sale at all drug stores.—Adv.

YOU NEVER CAN TAME A WILD-CAT

Mr. Dodson Warns Against Use of Treacherous, Dangerous Calomel.

Calomel salivates! It's mercury. Calomel acts like dynamite on a slugish liver. When calomel comes into contact with some bile it strikes into it, causing cramping and nausea.

If you feel bilious, headachy, constipated, and all knuckled out, just go to your druggist and get a bottle of Dodson's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tonic you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it.—Adv.

A rich girl may be homely, but she will never know it by hearsay.

Speedy Relief From Habitual Constipation

The liver is the largest and most important organ in the body, and when the liver refuses to act, it causes constipation, biliousness, headaches, indigestion, gas, sour stomach and bad breath, dyspepsia, diarrhea, piles in back and under shoulder blades and under ribs on right side. These symptoms lead to colds, influenza or other serious troubles unless corrected immediately.

An inactive liver places an extra burden on the kidneys, which overtaxes them and causes the blood to absorb and carry into the system the impurities that the liver and kidneys have failed to eliminate.

When you treat the liver alone, you treat only a third of your trouble, and that is why you have to take purgatives every few nights. Calomel or other drastic laxatives do not do for you. If you would treat your kidneys and blood while treating the liver, you would put your entire system in order and frequent purgatives would then be unnecessary.

Dr. W. L. Hitchcock many years ago recognized these important facts, and after much study and research, compounded what is now known as Dr. Hitchcock's Liver, Kidney and Blood Purifier. This medicine combined in one. This was the Doctor's favorite prescription for many years, being used by his patients with marked success. It is a harmless vegetable remedy that will not make you sick, and you may eat anything you like while taking it.

Get a large tin box from your druggist or dealer for 25c, under his personal guarantee that it will give relief. It is the liver, stimulate the kidneys to healthy action and thereby purify the blood. If your dealer does not supply your tin, will be mailed direct by the Hitchcock Medicine Co., Atlanta, Ga., upon receipt of price.—Adv.

It is far easier to look prosperous than to feel that way.

SKIN ERUPTIONS ON THE FACE

are unsightly and mar the appearance of many a woman whose face would be otherwise attractive. There is no need for this. Just get a box of Tetterine and use it regularly and you will be surprised how quickly pimples, blotches, itchy patches, etc., disappear and how soft and clear the skin becomes. Nothing better for eczema and other skin troubles than Tetterine. Sold by druggists or mailed for 50c by Shuptrine Co., Savannah, Ga.—Adv.

Parasols Are Again Unfurled

TIME out of mind gay and dainty parasols have flared their bright colors in the midsummer sunshine and cast their soft glowing shadows over fair faces. But during the war they did not flourish. Being among the luxuries that could be dispensed with and for other reasons, they were not so much used. This season, however, finds them revived, and with midsummer just around the corner, they have come out in considerable force and in distinct styles. Many of them appear to take their cue from midsummer millinery, showing a repetition of the fabrics and colors used in hats, and there are parasols for dress, street and country wear that correspond to dress, tailored and sports hats. The simpler designs outnumber the more elaborate ones.

For wear with almost any frock the green parasol with bands of black, or cross bars of black, and all white or white and black designs have the facility of making a pleasing ensemble. But if one is not confined to a single choice, the made-to-match parasol, of the same materials as the hat worn with it, is smarter than any other.

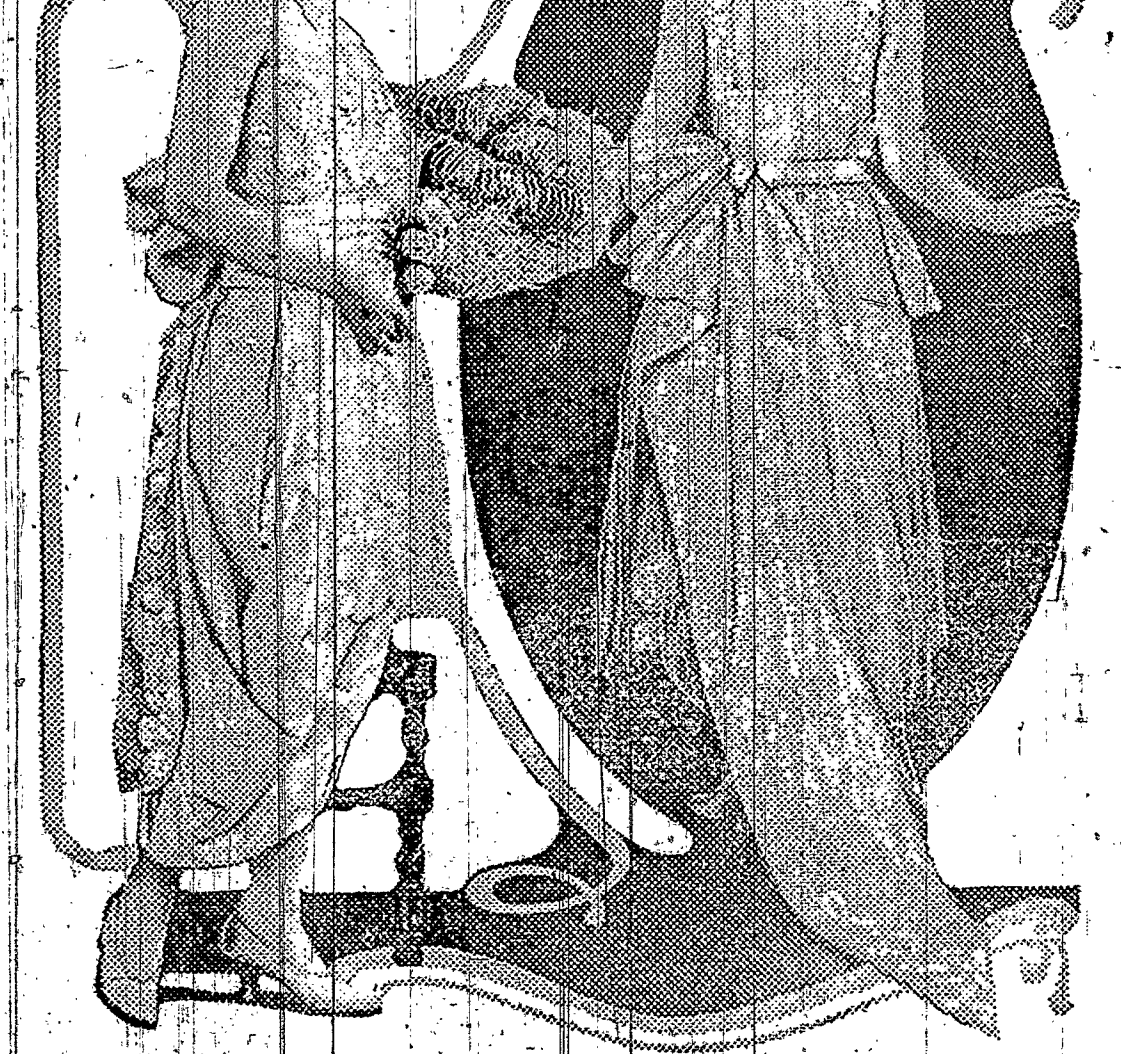

For the street there are navy blue and white combinations in which white or handle figures as a border and in folds of blue silk, these worn with hats of the same combination, match a sea breeze in coolness, and those green silk parasols, with bands of black, suggest cool, leafy shadows cast by the trees.

One of these is shown in the picture with handle in black and white enamel, and this model proves very practical. Black and white handles, furnished with large rings to slip over the wrist when the parasol is furled, have proved very popular. Hanging the parasol in this way is about the easiest and safest way of caring for it when it is left duty as a protector from the sun. There are a number of bracelet ideas in handles, including those of narrow black ribbon with gold or silver slides that carry engraved monograms.

A wide-brimmed hat of fallie silk overlaid with lace and having a trail of lace about the brim edge, makes a soft shadow over the face that is deepened and widened by a parasol to match. As shown in the picture, the set is developed in black silk and white lace, but the color that underlies the lace is a matter for individual choice. Wide white lace with a border provides a means of covering a parasol and hat like this with very little trouble; any seamstress can accomplish the work.

The "country club" set shown in the third picture includes a scarf with the hat and parasol so that there are three pieces in it. Pink indestructible crepe is used for this set, and the braid and embroidery decorations are in the same color.

Athena Smiles on Satin Gowns

CONSIDERATION of an evening second lovely gown. The very low bodice is veiled with tulle extending over the shoulders. The apron front and long back drape of lace reflect a style feature of the season that is not confined to evening dress; it is as popular and effective in frocks for afternoon.

Designers have adopted a trick of adding that "splendor dear to women" to the average evening gown by introducing rich and remarkable ribbons into their composition. Beautiful satin and airy tulle are the same in one or another lovely dress, but a flavor of magnificence pervades a gown when a distinctive and royal ribbon is introduced into such clothes. This is emphasized in the sleevesless, low-cut, model pictured. It has a slip of plain satin, bodice of sequins and plaited overdress of tulle with medallions in two sizes. A glorious ribbon, in marbled brocade, begins as a little beaded drape at the right side, a cascade at the left and ends in a train, trailing from a bow and ends of tulle.

Satin and lace join forces in the Pongee Dresses.

Pongee dresses are quite the rage in "juvenile" society this season. Touches of embroidery in contrasting colors, self-ribbons, self-tucking and cording are perhaps the most popular trimming touches.

Guffs of Fine Linen.
Street frocks of black taffeta are finished with very deep circular cuffs of the same with a turn-back cuff of white handkerchief linen.

Plaited Serge Skirts.
Plaited serge skirts are much in favor.

Adjustable Trimmings.
A limited amount of dress money and a natural wish for variety suggested an idea to an ingenious girl. She bought one gold straw hat of neutral tint, and three different trimmings, each made to fasten on with a clip. One trimming consisted of a simple band of purple ribbon tied in a broad careless bow at the front. But when a soft blue costume was to be worn, she slipped the purple band

with a large looped rosette. For other occasions when the hat was to be worn with an afternoon frock a wreath of simple flowers and foliage gave just the right touch of softness and freshness to the toilette.

Full Tulle Overskirts.
Full tulle overskirts are pretty features of the newest evening dresses. Stripped Rival Plaids.

POINT FOR HOME BUILDERS

Value of House is Greatly Enhanced by the Presence of Trees and Shrubbery.

If at all possible, any specialists of the United States department of agriculture, the house should be located near good trees, the shade of which may be used and enjoyed by the family every day during the summer. It takes so long to grow good trees that those already available should be cherished and utilized to the fullest extent.

Another thing that should be carefully considered is outlook. The house should be located so that the windows of the rooms most used look out upon attractive views. The living room and the kitchen are entitled to first consideration in this matter. The near view should be over an unbroken lawn, and there should be something to interest the eye beyond. If there is in the general landscape a mountain, a water view, a woodland, a meadow, an extended farm view, or even a handsome tree, use it as an inspiring picture, framed by the window for the family through the years. It may mean the difference between a sordid life and an inspired life for the children who are brought up under its influence. At any rate, it will mean active pleasure or quiet consolation to the wife amid the daily cares of the household. If all these natural objects are lacking, possibly some feature may be created on the place, such as an attractive group of shrubs so placed and arranged as to have something of interest every month in the year.

CLEAN UP UNSIGHTLY SPOTS

Rubbish Piles Are Very Much Out of Place in Any City of High Aspirations.

In the good old days before we got so absorbed in running the universe and contemplating the cost of living, we used to pay more attention to such homely matters as cleaning the streets and tidying up the yards, remarks the Kansas City Star. Dr. E. H. Bullock, health director, has called attention to our deficiencies in his appeal for a cleanup.

"Of course premises ought to be kept tidy all the time. There is no excuse for accumulating piles of ashes and tin cans. Still, in this frail world such things as rubbish piles do exist. That being the case it is better to clean up spring and fall, than never to clean up at all.

Most persons who get about town will testify to the general tidiness of yards. The average family takes pride in the appearance of a well-kept lawn. But an occasional slacker may disgrace a whole block. One unkept place will nullify the efforts of the entire neighborhood.

Let's not be a black spot on the neighborhood map. Let's clean up!

Must Turn to Home Gardens.
With the winter's wheat crop promising a yield of 245 million bushels less than last year, and the government warning the public that nearly all of the old wheat now in stock is of inferior grade and of low milling quality, and indications pointing to reduced acreage of spring wheat, the country needs to be aboused quickly to the danger of an inadequate food supply. With new potatoes selling in Florida at \$19 to \$20 a barrel, or three times what was formerly considered a good price, we must once more turn to the home garden as an aid to the nation's food supply. And the sooner the country understands this situation and its danger the better it will be for us.—Manufacturers' Record.

Loop and Elevated Aerials.
An extensive research on radio transmission and reception with various types of aerials has been in progress at the bureau of standards, Washington, D. C., says the Scientific American. One of the most interesting questions at the present time is as to the relative advantages of the antenna, or usual type of elevated aerial, and the smaller coil aerial or "loop."

This question is answered by the studies of the bureau. The small coil aerial has many advantages, but is usually not so powerful a transmitting and receiving device as the antenna type of aerial. It may, however, have so much greater resistance than the antenna that it is equal to it in transmitting and receiving value.

Resourceful Messenger.
A sentry, who was stationed at a certain gate with strict orders to admit no one, was approached by an Irishman. "Halt!" said the sentry. Mickey looked at him in surprise. "Faith, an' what am I to halt for?" he said. "No one is allowed in there," came the reply. "But sure I must go! I've a note for his 'anner the kurnel."

"Can't help it," said the sentry. "No one is allowed in there without a pass." "But I tell ye I must go or I'm sick Mickey," said the Irishman, sent me." "Can't help you sent you," said the other; "you can't go in." "Well, then," came Mickey's reply, "gimme the gun an' you take the note, and we'll manage finely!"

Woods That Resist Decay.
The use of woods in airplanes has caused experiments to be made regarding the resistance to decay of various woods. Spruce, which has been extensively used in airplane construction, is not particularly durable, but cypress, cedar, southern cypress and California redwood are very resistant to decay.

Mr. Herbert M. Gessner writes from his home in Berlin, N. H.:

I had stomach trouble over ten years; kept getting worse. I tried everything for relief but it came back worse than ever. Last fall I got awfully bad; could only eat light loaf, bread and tea. In January I got so bad that what I would eat would sour and boil; my teeth would be like chalk. I suffered terribly. I prayed every day for something to cure me. One day I read about EATON'S and told my wife to get me a box at the drug store as I was going to work at 4 p. m. I took one-third of it and began to feel relief; when it was three-fourths gone, I felt fine and when it was used up I had no pains. Wife got me another box but I have felt the pain but twice. I used five tablets out of the new box and I have no more stomach trouble. Now I write to tell you how thankful I am that I heard of EATON'S. It felt like a new man. I eat what I like, drink plenty of water, and it never hurts me at all.

LABOR IS SCARCE AND TWINE IS CHEAPER AS HARVEST TIME NEARS

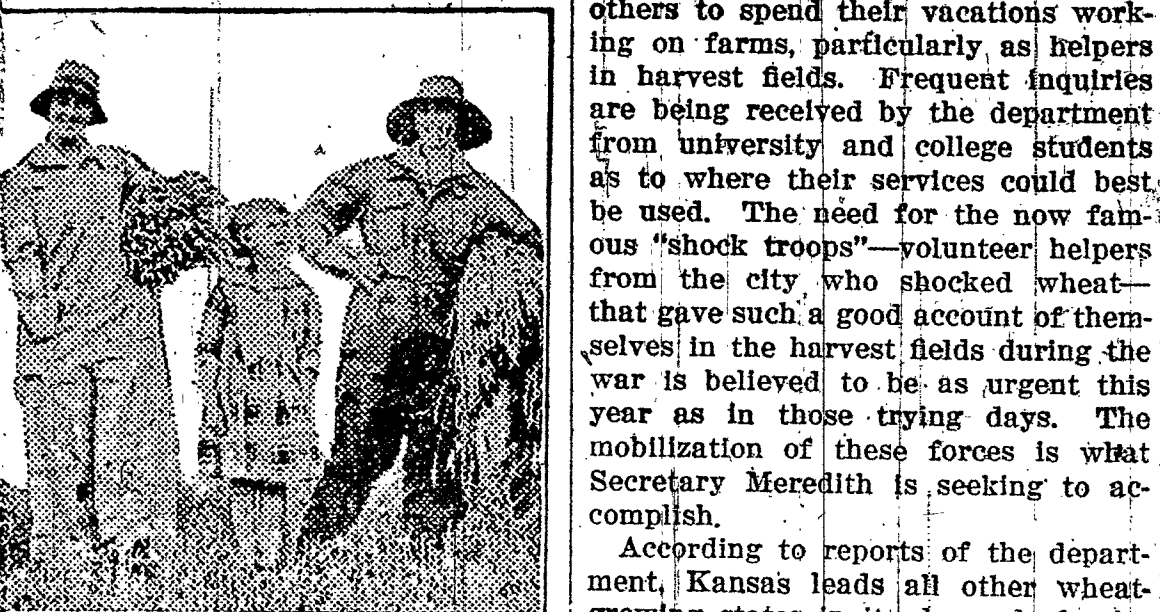

Doctors, Lawyers, Merchants and Fair Folk of the Cities Donned Old Clothes and Overalls to Help in the Harvest Fields During the War—the Famous "Shock Troops" to Whom the Secretary of Agriculture Has Issued an Appeal for Similar Aid This Year.

(Prepared by the United States Department of Agriculture.)

Labor and binder twine. On the eve of the harvesting season the wheat-growers' thoughts turn to these two necessary items, particularly the former, which caused him much worry during the years of the war. Of course, labor is the chief problem, but binder twine is something that must be reckoned with as well, and in its own way is a very important feature in the harvesting operations.

The wheat-grower need have no apprehension as to the supply of binder twine this season. Reports coming to the bureau of plant industry indicate that there will be a plentiful supply of this commodity available for the American farmer. Not only will it be plentiful, but it is likely to be cheaper this year than for some years past.

Yucatan—the chief and cheapest source of henequen, from which the twine is made—produced a large crop this year, which, coupled with the termination of control of prices by the commission regulators, was responsible for a drop in the price of fiber from 15 to 10 cents a pound early in March. The price is now re-

ported to be 8 cents a pound. This reduction should be reflected in the price of twine this season. Supply Not Affected by Revolution. Thus far the recent revolution in Mexico has not affected the henequen industry of Yucatan and Campeche, the two important fiber-growing states of that country. It is too late now for any disruption of this industry to affect seriously the supplies of twine for this year's harvest, as practically

ECONOMICAL METHOD IN THRASHING WHEAT

Task Should Be Performed Directly From Shock.

Grain That Is Handled When Damp Will Sweat Too Much and Become Hot and Burned—Community Plan, Most Desirable.

When thrashing can be done early, the most economical method is to thrash directly from the shock. Thrash when the grain is dry, either before or after it has gone through the sweat. If the grain is too dry, it will crack in thrashing.

Wheat thrashed before sweating in the shock will go through the sweat in the bins, giving the grain a darker and richer color. Grain that is thrashed when damp will sweat too much and become hot and bin burnt. When grain is stacked it should be allowed to go through the sweat before thrashing.

Community thrashing is desirable where the farms are not large. The individual farmer will get his thrashing done more rapidly and economically where a group of farmers can own and operate a thrashing outfit together.

See that the separator is well cleaned before the thrashing is started, in order to prevent the mixture of grain and the scattering of weed seed from the neighboring farms.

Watch carefully the working of the machine to see that the grain is entirely removed from the straw and that the chaff is blown out.

Stack the straw, use it as feed or bedding for live stock, and so convert it into manure.

Write to United States department of agriculture, Washington, D. C., for a copy of Farmers' Bulletin No. 678, "Growing Hard Spring Wheat."

BUNGALOW OF UNUSUAL DESIGN

Seven-Room Home Has Many Good Features.

CONTAINS PLENTY OF ROOM

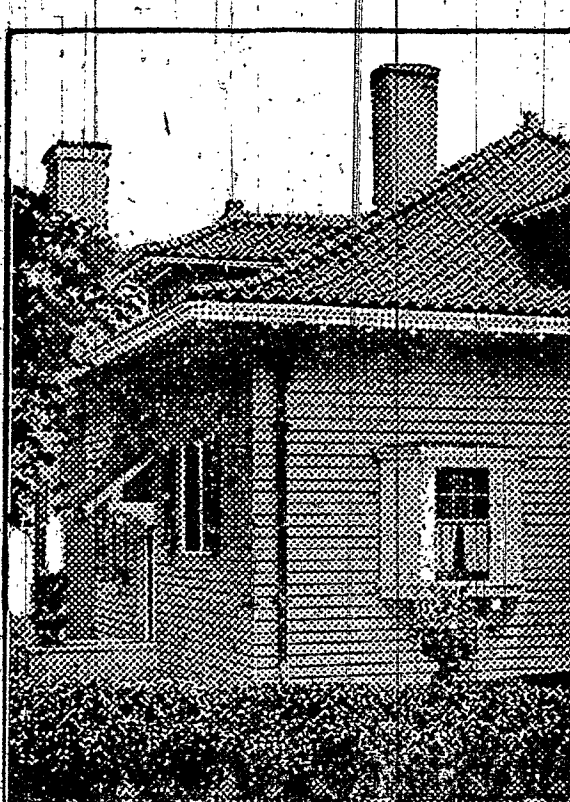

Artistic Bay Windows and Dormers Make This Design Different From the Ordinary Bungalow—Rooms Well Arranged.

By WILLIAM A. RADFORD. Mr. William A. Radford will answer questions and give advice FREE OF COST on all subjects pertaining to the subject of building for the readers of this paper. On account of his wide experience as Editor, Author and Manufacturer, he is without doubt, the highest authority on all these subjects. Address all inquiries to William A. Radford, No. 127 Prairie Avenue, Chicago, Ill., and only enclose two-cent stamp for reply.

Many home builders object to house designs that are unusual. They say, and usually are correct, that unusual houses are excellent as homes, but are not good investments. If it should be necessary to sell the possible buyers are fewer for the reason that an odd house will not appeal to so many persons.

However, it is possible to give distinction to a standard type of house, especially the bungalow. Architects design practically the same interior arrangement and by using different roof lines, designing unusual windows, and by giving the porch roof a distinctive treatment effect changes that take the home out of the ordinary class and put it into a distinctive class.

An excellent example of this branch of the architect's art is shown in the accompanying illustration. This home is not out of the ordinary in interior arrangement; neither is it of materi-

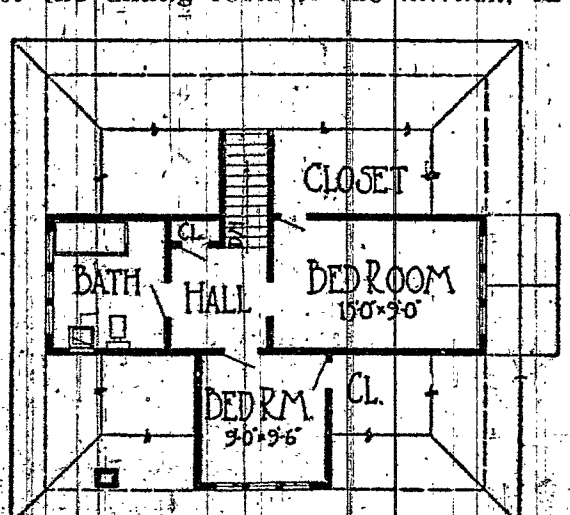

als that often are used to get unusual exterior appearances. It is a standard approximately square frame bungalow—but it does not look it.

The beauty of this exterior has been secured by the small, but artistic bay windows, the four dormers in the roof and the off porches. Remove these features and substitute those that ordinarily are shown in bungalow designs and this would be an ordinary house. Builders who erect such a bungalow as this need never be afraid that buyers would be scarce should it be offered for sale.

The bungalow shown is 32 feet at wide and 30 feet deep, which is, comparatively, a small house. Yet it contains six rooms—and all of the rooms are of good size.

In construction the bungalow is of wood frame set on a concrete foundation. The roof is of ornamental tile. The front entrance leads to a reception hall that extends through the first floor. To the right of the hall is the living room, 15 by 11 feet, 6 inches; to the left is the dining room of exactly the same size. At the rear of the dining room is the kitchen, 12

Second Floor Plan.

by 11 feet, 6 inches. At the rear of the first floor is a bedroom, 13 by 10 feet, 6 inches, and, being a corner room, is a well ventilated, pleasant sleeping room. Between the bedroom and the kitchen is a lavatory.

The stairs to the second floor run out of the hall toward the back of the first floor and lead to a central hall on the second floor where there are two bedrooms and the bath room. All of these rooms are in the dormers. One of the bedrooms is 9 by 15 feet, while the other is 9 by 9 feet, 6 inches.

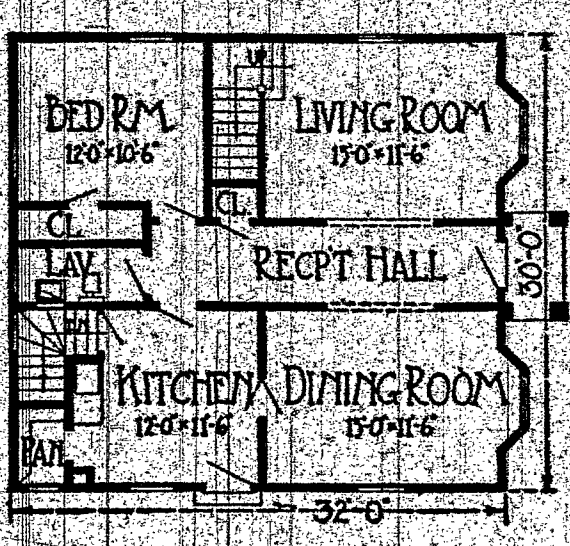

Seldom are bungalows of this size planned so that they contain three bedrooms, but it is done here, and done in such a way that the cost of the home is not materially increased. The arrangement of the rooms and the dimensions of each one are shown on the floor plan that accompanies the exterior view of the house.

This home is of a size that may be heated by either a pipeless furnace or the standard variety, with pipes leading to registers in the rooms. If a pipeless furnace is used, it should be located near the center of the house with the large register in the hall.

A basement extends under the whole of the house. Here there are rooms for the heating plant, storage rooms for fuel, fruits and vegetables and a part set aside for the laundry and the laundry equipment.

Some of the points toward making a bungalow a good home, and the

those whose houses have considerable space about them, are paying more attention to the planting of shrubs, trees and flowers, nowadays than ever before. Bungalows, especially, are made more attractive by a judicious planting of shrubs and lattices covered with vines, giving an air of privacy that is hard to secure with

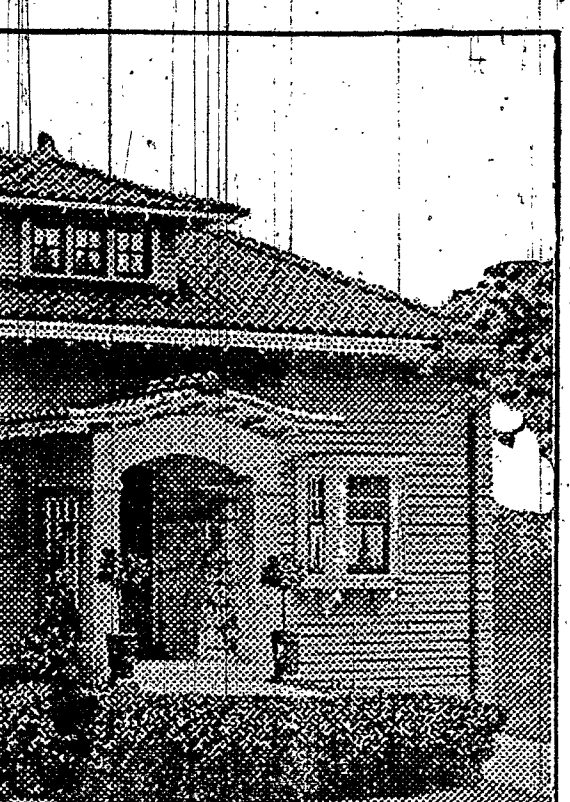

First Floor Plan.

a two-story or even story-and-a-half house. Attention to the yard that surrounds the home is a good investment, for it is a proven fact that every dollar invested in this manner increases the value of the place two dollars.

Speaking of investments there is none that any man or woman can make that pays better dividends than a home. Home owners derive a satisfaction in their own houses that can scarcely be measured in dollars and cents. But added to this fact is the one that money invested in a home usually comes from systematic saving. Systematic saving requires an incentive, and there is no greater incentive than acquiring the ownership of a comfortable, attractive home.

To build a home, of course, requires that the builder have a certain percentage of the cost to pay down and may pay the balance in monthly or yearly installments. To get this first, or "down payment" saving is required. There is no time like the present to start the home building fund—and it is surprising how soon

there will be an amount sufficient to secure a home—one like that shown in the accompanying illustration.

Do You Believe It? War stories are very prevalent just now, but one of the best is provided by a young army veteran in Bradford, Eng., who has pretty well circumnavigated the globe on two or three occasions. Among other places where he has seen service was with Kitchener in the Sudan, and he tells a very interesting story of what is probably the most novel musical "instrument" that has yet been invented. At the battle of Omdurman, the native women followed up their troops, carrying sacks of stones for slings, babies on their backs, and other impedimenta. When the natives' attack was turned into a rout, and they faced about for the retreat, the Britishers were astonished to find the field covered with babies who had been thrown away in the flight. The camp humorist, finding that there was a great variety of musical tones displayed in their walls, picked out a suitable eight, set them up on a plank and by a little encouragement, obtained a complete octave, from which, by gentle punching, he got a variety of music.

Swat the Flea! Eight of the 5,000 different kinds of fleas, convey plague. That is why fleas as well as house flies, to which we owe the dissemination of typhoid, cholera, dysentery, the summer diarrhoea so fatal to children, and tuberculosis, should be relentlessly swatted. Bugs are known to be carriers of that malignant malarial malarial known as Kala Azar, while the house-conveys typhus. No fewer than a thousand species of mosquitoes are known to science, 18 of which occur in the British Isles. Of the latter one is known to carry malaria. Abroad, malarial yellow fever, dengue, and elephantiasis are spread by mosquitoes. The little black "nidge" is not usually more than an irritating pest, but it can occasionally be dangerous, especially when it has been on putrefying material. Its bite may then be followed by serious consequences, and small abscesses, followed by blood poisoning are not unknown.

Cosmopolitan, Switzerland. Before the Romans conquered the territory now known as Switzerland, it was inhabited by a conglomeration of hostile tribes, for the most part of Celtic origin. But the district of the eastern Alps in which the present canton of the Grisons is situated was of Latin and Romance stock. At the time of the Teutonic invasion, the Romans empire, Rhætia received a certain number of German-speaking immigrants, and in the tenth century was used for a while as a basis of operations by the Saracen brigands, who made Europe unsafe.

Sugar and Crime. The observation has been made in the English courts that 90 per cent of the children brought up for trial were accused of stealing sweets. This corroborates the assertion of Judge Henry Hall that whenever there is an increase in juvenile crime it is due to a scarcity of sugar. The children have had none, and they will steal

MILLIONS OF GIANTS PUT ON JOB

Germes of Blood Diseases Meet Conquering Foe.

Germes of Eczema, Tetter, Pella-gra and other forms of blood troubles make their headway in exact accordance with the scarcity of red corpuscles in the blood.

When these corpuscles are multiplied and strengthened to the extent of being capable of overthrowing disease, germes, then and only then, does the disease begin its losing battle.

Sul-Ferro-Sol is a mineral water rich with the one element (iron) that strengthens and multiplies red corpuscles—it makes them by the million.

One teaspoonful of Sul-Ferro-Sol taken three times a day quickly places the wonderful effects of this remedy.

Booklet giving details mailed on request. Liberal bottle one dollar, (6 for \$5), at all drug stores or postpaid upon receipt of price. The Sul-Ferro-Sol Co., Desk A, Monticello, Ala.

CITY ECHOES.

—We have a few Victoria Bars at \$4.25. The Bay Mercantile Co.

—Mr. and Mrs. J. P. Perret and little son spent Thursday in New Orleans, visiting relatives and friends.

—Mrs. T. E. Kellar and children have been visiting relatives in Jasper county, Mississippi.

—Miss Mildred von Dronkowsky left last night for Columbus, Ohio, to spend two weeks. She will visit relatives.

—Miss Louise Armstrong left on Thursday morning for Cincinnati, O., where she will further pursue her studies in music, taking a short course.

—Mr. Ronald Hymel, assistant cashier of the Merchants Bank, left for New Orleans Thursday, where he will spend part of his annual vacation.

—Just received a full line of all wool Fall and Winter Suits, priced from \$40.00 to \$50.00. Call at the Bay Mercantile Co. and examine the line.

—Dr. J. A. Evans left during the week for a two-week vacation, which he will spend in different parts of Tennessee with relatives. He will return with Mrs. Evans who has been spending the summer at Bristol and other points.

—Moving pictures at S. S. C. Auditorium, tonight—benefit Church Our Lady of the Gulf.

—All roads will lead to Stanislaus College auditorium tonight. The time, 8 P. M. The event: Moving pictures. The occasion: Benefit fund Church of Our Lady of the Gulf. An admission of twenty-five cents will be charged. There will be a two-reel comedy and a feature drama starring Norma Talmadge. Good pictures; good cause—good offer you to attend this evening.

—Major W. A. McDonald tendered his resignation as a member of the City School Board of Trustees at a meeting of the City Council held Saturday. Mayor R. W. Webb appointed in his stead Prof. Donald Marshall, instructor N. O. Boys' High School, who is a patron of the R. W. Taylor School.

—Miss Celine Fayard, who has served as principal of the R. W. Taylor School for the past five or more years and who has built it to the high water mark of efficiency, has been transferred to the Central School for the coming session. This promotion comes from the Board as a mark of recognition of worthy and effective service. The Taylor School will be in charge of Miss Mae Colson, ex-principal and Miss Ella Fayard as assistant.

—Don't forget we have a full line of tennis shoes for men, women and children. The Bay Mercantile Company.

—Manager E. J. Erwin, resident manager for the Cumberland Company, is spending a well-earned and deserved vacation of two weeks. He has been spending much of his time fishing, and his success with the rod has been such that much of the waters hereabouts are on the verge of being depleted of their finny denizens.

—Although on a two-week leave, we note Mr. Erwin does not wander very far off from his job, but on the contrary, he keeps constant tabs on his work and is frequently seen at his desk.

—Judge V. A. Griffith has returned to Gulfport after an absence of about a week, says the Gulfport Herald. He came back with his commission and is now Chancellor of this district. His firm term of court will be held September 20th at Waynesboro.

—Nineteen boxes failed to make any return though it is believed that they were for him. Judge Griffith's qualifications for chancellor are so well known that his election is hailed with satisfaction throughout the district.

—The Board of Mayor and Aldermen has been in session every night this week, revising the assessment rolls. It is a big task and one that requires the most careful and intelligent consideration, and we feel satisfied the Board has been equal to the occasion. The City of Bay St. Louis has no other revenues save that from taxation, and as the expense of running the city, no matter how intelligently, and economically managed, the cost is in keeping with the upward tendency of all else, hence a moderate readjustment is imperative.

—Mr. and Mrs. C. M. Spott left on Monday night for New York City, where they will spend a while visiting Mrs. Spott's sister, Mrs. A. deLappe Whitney, and children. They expect to visit other points East before returning home.

—Mr. Frank Borgeas, efficient and accommodating, and efficient salesman at Bourgeois', has returned to his position after an enforced absence caused by illness.

—Mr. G. E. Temple, proprietor of the Bay Jewelry Store, on Thursday received from the Board of State Examiners in Optometry, a certificate which qualifies and allows him to practice that profession in this State. While recently in Jackson, having concluded his studies, Mr. Temple took the State examination, with the result that he passed with a high percentage, and which entitled him to the certificate as aforesaid.

—Just received all sizes of shot, gun shells and can supply in any quantity. The Bay Mercantile Co.

—Mr. and Mrs. R. L. Genin left Tuesday morning for Houston and Galveston, Texas, spending today and tomorrow at the latter place. Mr. Genin is secretary-treasurer of the Banderet Oil Company, of Bay St. Louis, now drilling at Hungerford, (near Houston), Texas, and his visit to that vicinity is in the interest of the vast land holdings of the company in that section.

WAVELAND CHURCH FAIR WAS BIG MONEY-GETTER.

Benefit for St. Claire's Chapel Nets Over Thousand Dollars.

The Waveland Fair given on Saturday, August 7th, for the benefit of St. Claire's Chapel, Rev. Father Costello, pastor, was a grand success, notwithstanding the inclement weather which prevailed during the afternoon.

It was given at the Hall of the Holy Cross College, which was thronged with friends of the chapel, who were anxious to help the good cause. All of the booths were well patronized and quite a nice sum of cash was realized as a result.

The fair was under the management of Rev. J. M. Costello, who proved himself most competent in arranging in the sum of one thousand and twenty-five dollars. Some parties are still to be heard from, which may swell the amount to eleven hundred or more dollars.

The candy table was in charge of the Misses May, Virginia and Evelyn Grace, assisted by the Misses O'Keefe, Wogan, Lapeyre, Mrs. Angaruss and Mrs. Blanchard. This table brought in three hundred dollars.

The cake table was in charge of Misses Henderson, Mrs. Fournier and Mrs. Adams. The pop table Mrs. Christie. The cake and pop table combined brought in two hundred dollars. The sandwich and lemonade table by Mrs. Dell brought in one hundred and seventy dollars.

The ice cream table in charge of Mrs. Thrifley and Mrs. McChine, brought in one hundred and five dollars.

The fancy work table by Mrs. Stout, forty-five dollars.

Gate receipts, two hundred dollars. The program of the entertainment consisted of a sketch by Mr. and Mrs. Bernard Shields, fancy dance by Miss Blanchard, recitation by Miss P. Landry.

—August 10th is always a "red letter" day in the local postoffice. The assistants to the P. M. make it so. Tuesday was Post Master Joseph Evariste Saucier's birthday.

It was his 68th anniversary, and no one would believe it but for the fact he is in all self-possession. He is the most active and youngest-looking man of any nearing the 70th mile post. Yes, girls, he's a married man! Mr. Saucier points with pride to the fact he was born in Bay St. Louis, Hancock county, and the place of his birth—the smaller house of the Heymann properties on the beach.

Mr. Saucier is one of the most esteemed and honored citizens of this locality. He has held various positions of trust. He was justice for several terms, sheriff and also county assessor. He is serving his second term as post master of the city of Bay St. Louis, and under his administration the rating of the office has been raised from third to second class.

—Telegraphic communication yesterday brought tidings from Mr. L. Stokoe and party who are spending the summer motoring through the far West. They are at present in Salt Lake City and Garfield Beach, Utah, viewing the wonders of that beautiful locality, surrounded by the Wasatch range. They have toured the "Yellow" Park, covering the 168-mile park course with their own car and spending one day each of the seven at as man hotels in the park. The party consists of Mr. and Mrs. A. L. Stokoe, Miss Lillith Ansley and Miss Emma Lou Stokoe. They expect to reach home towards the latter part of September.

—Mr. and Mrs. I. M. Litchenstein well-known Bay St. Louis summer residents passed through here Saturday night enroute to New York, where they will spend a while with relatives and friends before proceeding on to Maine to spend the balance of the summer, and where their daughter, Miss Fannie, is attending summer school.

—Mr. R. W. Taylor returned home yesterday morning from a business stay in Atlanta, Ga., and is contemplating locating in that city with his family. Mr. Taylor expects to associate himself with his brother-in-law business who is already located in the "New York of the South."

—Petitions are in course of circulation for signatures, addressed to the Board of Mayor and Aldermen, praying that Nicaise avenue be opened from Main street to Carroll avenue. The petition has merit for consideration, and The Echo is of the opinion that if the Board of Mayor and Aldermen, in its wisdom, sees its way clear to grant the petition that it will do so.

—The necessity of continuing Nicaise avenue on through to Carroll avenue is urgent and needs no argument.

—County Superintendent T. E. Kellar has returned from Gulfport, where he attended the annual conference of the Mississippi county superintendents. Mr. Kellar took prominent part in the deliberations of that body, and it is needless to say that Hancock county was well represented. It was one of the most representative bodies and constructive work to assemble within the confines of the State.

—Mr. and Mrs. E. C. Joulain, Jr., residing in Carroll avenue, left here during the early part of the week, Mr. Joulain resigning his position as manager of his father's plant at Lake Shore and taking a position with one of the oil corporations in southern Oklahoma, and later to locate at Tucson. In the meantime Mr. Joulain will visit relatives at Biloxi. Mr. Joulain made many friends here and the departure of both he and his wife is regretted. He will be succeeded at Lake Shore by his brother, who formerly held the position.

—Mrs. L. M. Power and charming little daughter, Miss Effie Graham Power, left a few days since for Bay View, Michigan, where they will spend the remainder of the summer season. They will visit other points before returning home.

—St. Stanislaus College announces September 9th as the date of opening of its 1920-21 session, and the largest number of attendants in the history of the college is expected. The third story of the main building has been made into a spacious and well-ventilated dormitory, and the accommodations which were lacking last season will be made more amply supplied this year.
